

PEOPLE FORCE EXELSYS PARTNERSHIP

PEOPLE FORCE IS A CERTIFIED EXELSYS IMPLEMENTATION PARTNER IN THE UK

People Force has many years of experience in implementing various solutions, including Exelsys, for clients across multiple sectors globally. The People Force Exelsys Practice consists of certified Project Managers and Consultants with in-depth product knowledge.

The team, headed up by Nick Waters, has a strong operational HR, payroll and operations background which means they fully understand and appreciate the challenges that these departments face daily. People Force can also take on API integration activities through its excellent technical capabilities.

As a certified Exelsys partner, People Force can be engaged as an implementation and support partner or provide staff augmentation services by becoming an extension of the client's internal team during an implementation. Here is a summary of how the two engagement models differ:

IMPLEMENTATION AND SUPPORT:

- » Vendor-side Project Management
- » Subject Matter Experts in the Exelsys Solution
- » Identification of best practice approach to using Exelsys
- » Facilitate the solution workshops
- » Configure and test the solution in accordance with standard processes
- » Provide training to key users
- » Provide ongoing post-implementation Level 1 helpdesk support

STAFF AUGMENTATION:

- » Client-side Project Management
- » Subject Matter Expertise (HR, Payroll, Workforce Management, Recruitment, Performance and Learning)
- » Support with internal comms
- » Represents the internal voice on the project
- » Ensures that internal processes are identified and communicated within the solution workshops
- » Collates and cleanses the data required to be loaded into Exelsys
- » Ensures that the solution meets the client requirements through specific test case scenarios
- » Responsible for the internal roll-out of the application and user specific process training
- » Integration activities with third-party solutions
